Question 1

In order to improve and make schools develop there are ~~are~~ certain points ~~in~~ which we need to pay attention to.

On the one hand, giving importance to technology is fundamental and is a great advantage by the time teachers want to teach because it provides a lot of information and ~~is~~ ^{in a} really accessible ^{way}. Even though books ~~have~~ ^{are of} great value and children must get used to them despite the fact they are living in the technological age. For example when going to the computer lab, ~~and~~ showing children ideas from what they are learning catches much more their attention and makes the subject very entertaining and so do pictures.

On the other hand, increasing the exercise hours per week is an important issue. Doing sport is vital for ~~for~~ human beings specially for children and teenagers who are in constant movement, by having sports two days a week they will feel free both mentally and physically. When children do nothing but sitting on their benches listening to different teachers from Monday to Friday they get more distracted and they are more tired. While being outdoors is kind of an oasis for them when they get stressed.

To sum up, even though you can find out loads of alternatives to improve school develop and its level, focusing ~~at~~ ^{on} the power of technology and its devices will lead all your students come top of their class ^{passing with flying colours}.
